Work Experience

Aperles CO | Oct 2020 - Mar 2021

Full Stack Developer

- Development of eCommerce solutions for clients.
- UXUI overhaul with Styled Components

Tortas Mamá Mabel | Abr 2021

Full Stack Developer

- Creation of the entire online platform.
- Web app for streamlining orders. Saving costs in errors, refunds and customer satisfaction.
- UXUI optimization and platform for online courses.

Education

Plataforma 5 | Mayo 2020

Bootcamp Full Stack

- Intense 700hs program which starts from the basics all the way to developing complete full stack apps with leading tech stacks.
- The final project was an eCommerce platform built from scratch with backend in Node, PostgreSQL and Sequelize. Front End in Vanilla JS, React Redux and Bootstrap 5.

UNA y UBA | 2016

Ciencias Biológicas y Escritura

- -Capable of articulating complex ideas.
- -Devotion for knowing how everything works and how to come up with experiments to work it out.

Six Values

- Discovering new ways to work through a scenario.
- Go all the way until it is done.
- Take advantage of your team's experience and expertise.
- Master new tools.
- Do things the right way.
- Rely on yourself above all else.

Self Taught

- Exploring new ways to utilize React, the libraries and frameworks in its ecosystem as Auth, Firebase, Tailwind.
- Diving into the particularities of Node to establish a solid groundwork and satisfy personal curiosities.
- Persisting in my conquest of CSS through Styled Components and looking to integrate animation and sound preserving agility.
